Android Developer with hands-on experience building and scaling Kotlin-based mobile applications used by millions of users. Specialized in Jetpack Compose, MVI architecture and Android testing, with proven experience developing production-grade features across AI, media, and education products.

PROFESSIONAL EXPERIENCE

Android Developer, Mellon Technology 11/2024 – 06/2026 | Ataşehir, İstanbul

- Developed and maintained production-scale Android applications using Kotlin, Jetpack Compose, and MVI architecture across AI, media, and productivity products.

- Videa (2M+ downloads)**: Developed and maintained core product features including A/B-tested onboarding flows, video trimming, and media playback functionality using Jetpack Compose. Also implemented comprehensive unit and integration tests to improve feature reliability.

- Robo AI (700K+ downloads)**: Re-architected a legacy XML-based Android application using Jetpack Compose and modern Android development practices.

- Photo Enhancer (50K+ downloads)**: Implemented core features including video generation and the video playback screen.

- Lingo**: Developed an AI-powered chat interface using Jetpack Compose.

TÜBİTAK STAR Lisans Research Intern, Yıldız Technical University 02/2024 – 06/2024

- Developed an Android e-commerce application from scratch using Kotlin and Jetpack Compose with MVVM architecture.

- The application was used by over **500** users, and the collected data was utilized for conjoint analysis.

Android Developer Intern, MT Bilgi Teknolojileri 08/2023 – 09/2023

- Designed and developed a mobile application for Android POS terminals from scratch using Kotlin.

Software Developer Intern, Meşk Teknoloji - İTÜ Arı Teknokent 05/2023 – 07/2023

- Worked on audio processing algorithms and UI development in Unity.

EDUCATION

Biruni University / Computer Engineering, Bachelor's degree (Full scholarship) 2020 – 06/2024

SKILLS

Programming Languages

Kotlin, Java, Python

Android

Jetpack Compose, Android SDK, Coroutines, Flow, Navigation, Room, Retrofit, JUnit, MockK

Tools & Platforms

Git, Firebase, AWS, Linux, Figma

LANGUAGES

Turkish

Native

English

Intermediate

AWARDS

Top 8 Finalist, Kuveyt Türk Ideathon 12/2023

Top 9 Finalist, Kuveyt Türk Ideathon 12/2022

PROJECTS

Soru Kartım (Google Play) 🌐 08/2024

- Developed and published an educational Android application using Jetpack Compose and MVI architecture, reaching **10,000+** downloads on Google Play.

- Integrated Firebase Analytics and Crashlytics to monitor user behavior and production stability.

TÜBİTAK 2209-A (Project Manager) 04/2023 – 03/2024

- Served as the project manager for a three-person team in a TÜBİTAK-supported software project.
